Assignment Cover Sheet

Name: _____

Email: _____

Assignment: _____ **Date**: _____

Completeness & Correctness (10 Points)

- Code runs *without* compile or runtime errors

- Code does the requested tasks using the requested techniques

- Hard copy includes example output showing code works correctly

- Code submitted to dropoff site

Comments and Formatting (2 Points)

- Appropriate use of comments throughout code

- Consistent indentation, white space, variable names, etc.

- Consistently follows appropriate coding style

To avoid losing points, you must ensure your printed source code is formatted properly, including appropriate indentation and lines that do not run over the width of the printed page.

Assignment Reflection (3 Points)

- Description of design and implementation approach and issues encountered

- Any assumptions made and how they were addressed

- Testing strategies, testing challenges/issues, and test coverage as appropriate
